

Indigo Clean® FAQ

What is *Indigo-Clean*?

Indigo-Clean is integrated into Pinnacle Architectural Lighting luminaires to provide safe, environmental disinfection that is proven by independent laboratory testing to kill harmful bacteria including Staph*, such as MRSA**. Continuous, 24/7 use is recommended for optimal disinfection.

What is the disinfection claim?

Pinnacle Architectural Lighting luminaires using *Indigo-Clean* are independent laboratory tested and proven to kill harmful bacteria including Staph, such as MRSA.

How do I know it is working?

For these Pinnacle Architectural Lighting luminaires, if the light is on, the *Indigo-Clean* technology is working.

When should I use Pinnacle Architectural Lighting's *Indigo-Clean* luminaires?

Pinnacle Architectural Lighting luminaires using *Indigo-Clean* provide continuous disinfection when the luminaires are on. For optimal room disinfection, 24x7 use is recommended.

How do Pinnacle Architectural Lighting luminaires using *Indigo-Clean* work?

In combination with white LEDs, Pinnacle Architectural Lighting's *Indigo-Clean* fixtures use 405nm Indigo light to kill harmful bacteria, including Staph, such as MRSA.

What is the warranty on Pinnacle Architectural Lighting luminaires using *Indigo-Clean*?

Pinnacle Architectural Lighting luminaires using *Indigo-Clean* are covered under Pinnacle's 5 year warranty against defects in material and workmanship.

Is there a price premium associated with Pinnacle Architectural Lighting luminaires using *Indigo-Clean*?

The luminaires are priced to fit within your lighting budget, while providing an additive value of disinfecting your environment to bolster your current cleaning protocols.
