ARCHITECTURAL LIGHTING®

# Light you can see. Quiet you can feel.

In today's open, multi-use environments, sound shapes experience. When noise accumulates, it disrupts focus, comfort, and connection.

Acoustic lighting helps restore balance. By integrating sound absorption into luminaires, these solutions reduce unwanted noise while maintaining visual harmony—bringing calm, clarity, and comfort to any space.

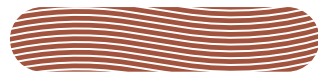

Studies show that better acoustic design boosts productivity, enhances comfort, and even improves the perception of lighting quality.

When sound and light work together, spaces feel more balanced—and people feel more at ease.

## Lighting-First Design with the FINA Engine.

At Pinnacle, acoustic luminaires start with exceptional lighting. The FINA light engine is engineered for high performance first—then designed to integrate acoustic materials without compromise. With FINA at its core, Pinnacle pendant acoustic solutions deliver both brilliant light and refined acoustics

# Flores

Combines powerful performance and thoughtful design in a floral-inspired acoustic pendant.

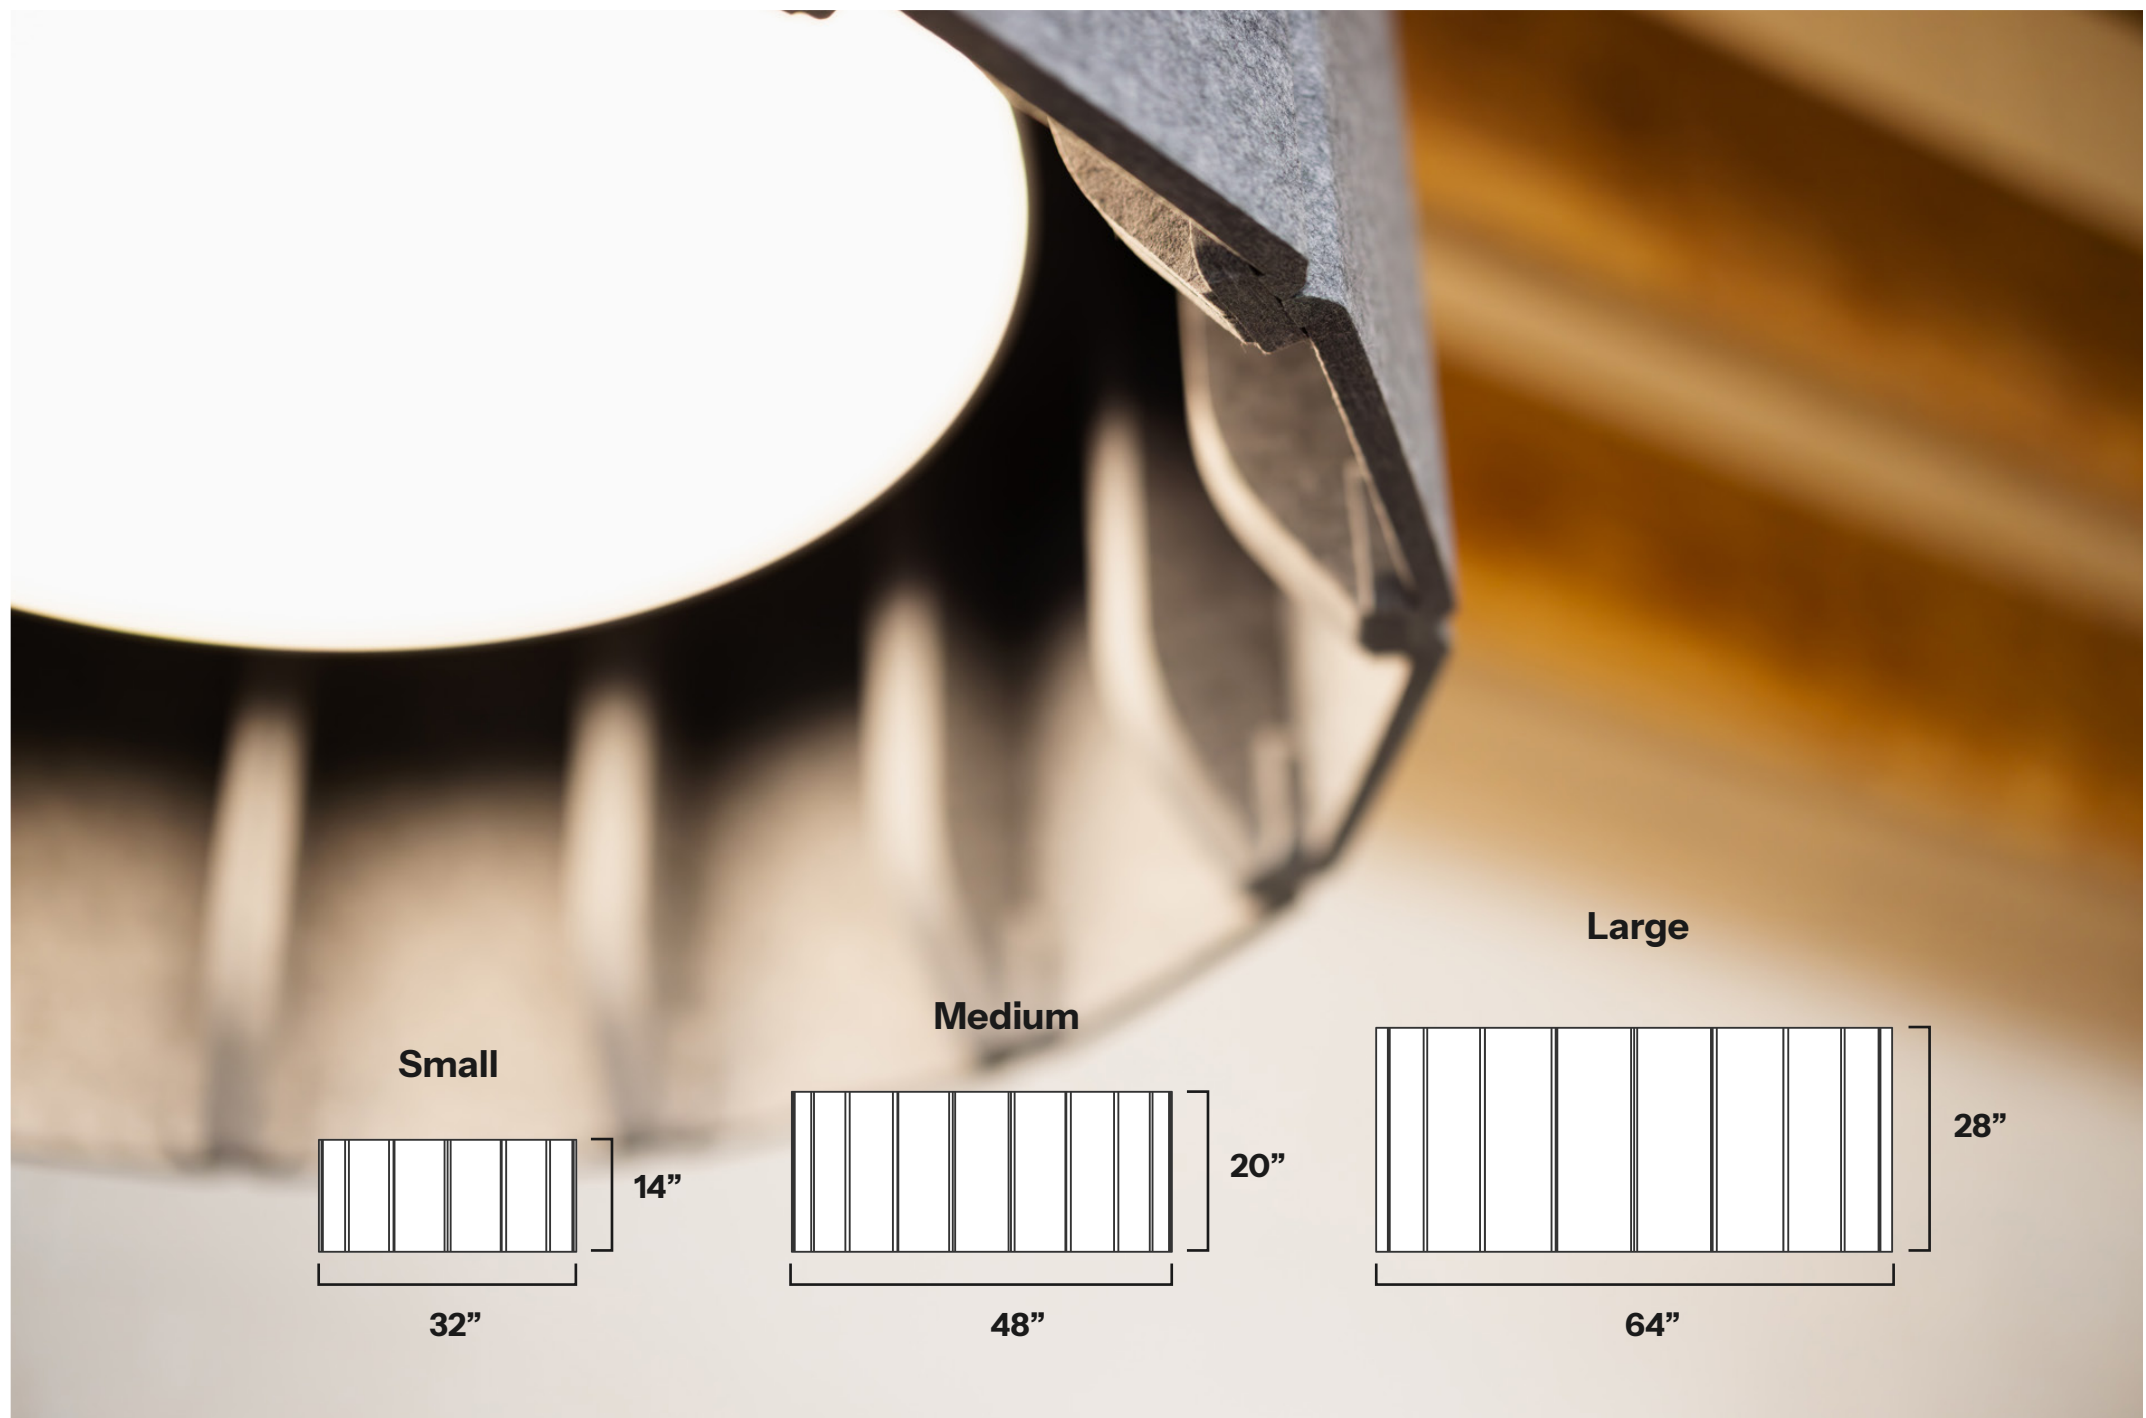

At its core is the high-output FINA round light engine, delivering high-quality direct or bidirectional illumination with a wide range of configurable options. Available in 32", 41", and 62" diameters, Flores brings sculptural softness—from quiet corners to spaces with soaring ceilings. The regressed, fully luminous lens offers comfortable, controlled illumination, while the 12mm PET Felt shade enhances acoustics with beauty and intention.

Flores Medium & Large, Ivory

# Drum

Merges timeless geometry with high-performance lighting and acoustic control.

At its core is the powerful FINA round light engine, delivering direct or bidirectional illumination with a wide range of configurable options. Available in 31", 46", and 63" diameters, Drum adapts easily—from focused huddle areas to expansive atriums that call for clean lines and quiet presence. Its cylindrical, multi-panel form reimagines the classic drum pendant, crafted from 12mm PET Felt with an inner rib detail that adds depth, texture, and refined architectural character.
