

STICK THE LANDING with Chute 180

Open-aperture illumination,
perfected with a curve.

Chute 180 lands smoothly in any spec — combining the clean look of an open-aperture linear fixture with a **subtle curved endcap for a fresh, modern profile**. Its 2.5" luminous opening creates smooth, uninterrupted lines of light, while the softened ends bring a sense of flow to layouts that often feel rigid. **Compact, efficient, and versatile**, Chute 180 delivers high performance illumination for individual, continuous, and pattern applications.

- ✓ Curved endcap adds softness and movement
- ✓ 2.5" luminous aperture with hidden source
- ✓ Integral driver option for a cleaner install
- ✓ Up to 128 lm/W for energy-smart design
- ✓ Light Protection Guard for a smooth, cleanable lens
- ✓ Suspended, surface, or recessed mounting
- ✓ L, T, X, Y connectors for creative layouts or standalone forms
