

CHUTE FORMS

CDF

Y and X Open Suspended Direct Form

Key Features

- 4" wide fixture with a 2 1/2" fully luminous open aperture
- Small, integral driver option for quick, easy installation
- One-piece housing in 90° 4-leg (X) and 120° 3-leg (Y) forms
- Light Protection Guard (LPG) covers LEDs for optimal performance
- Four distinct decorative endcaps for tailored designs
- 5-year limited warranty
- Product transparency with third-party verified Living Building Challenge (LBC) Declared

Declare.

Example Part #: CDF-N-850HO-Y3-AC48G1-1-EL1-1-0-W-IB

CDF - N

HOUSING INDIRECT SHIELDING CRI, CCT & OUTPUT FORM MOUNTING VOLTAGE DRIVER CIRCUITING BATTERY & EMERGENCY FINISH ENDCAPS FIXTURE OPTIONS CONTROLS

N	-----	----	-----
INDIRECT SHIELDING	CRI, CCT & OUTPUT ¹	FORM	MOUNTING ²
N - None <			

¹When specifying CRI, CCT & OUTPUT the first _ is for specifying either **8** - 80CRI or **9** - 90CRI. The ending _ are for specifying output, example **HO** - High Output. See output charts for more information. ²Use _ to specify cable length standard AC is **48", 120", 240"** or **350"**; Specify grid: **G1**=15/16", **G9**=9/16" or **GS**=Screw Slot. Example: AC48G1. ³All Battery & Emergency options are REMOTE. Choosing EL1 with either option will include the driver(s) in the remote box with battery or emergency. Enter quantity for Battery and Emergency, Example 2PRD. ⁴Compliance is configuration dependent; consult factory for confirmation.

Specifications and dimensions subject to change without notice. Specification sheets that appear on pinnacle-ltg.com are the most recent version and supersede all other previously printed or electronic versions.

CRI, CCT & Output

▪ 90 CRI = R9≥50

▪ 90 CRI not available with VHO

Custom Output - Lumens OR Wattage

CL _____	Specify CRI, CCT and desired lumens (i.e. CL8401100)	Max lumens dependent on color temp. Consult factory for more information
CW _____	Specify CRI, CCT and desired wattage (i.e. CW9407)	For custom wattage consult factory for more information

Mounting

- Specify cable length in ordering code (AC48G1)
- Standard specifiable lengths are 48", 120", 240" and 350"
- End plates and power cord attached at factory
- Aircraft Cable supplied with 5" (127mm) power and 2" (50.8mm) non-power canopies
- Canopies are painted to match fixture finish, power cords are white or black depending on fixture finish. See Finish section for additional details
- Approved for dry/damp location unless otherwise noted
- Refer to installation instructions during installation at the job site
- Maximum fixture weight is 6 lbs/ft
- For integral driver version, access for wiring and drivers through the indirect side of the fixture only

AC__G1	Aircraft Cable 1" (15/16") T-Bar
AC__G9	Aircraft Cable 9/16" T-Bar
AC__GS	Aircraft Cable Screw Slot T-Bar
AC__JB	Aircraft Cable Junction Box
AC__ST	Aircraft Cable Structure
AC5__G_	Aircraft Cable 5" (127mm) Non-Power Canopy
AC5__JB	Aircraft Cable 5" (127mm) Non-Power Canopy
SQ__G_	Aircraft Cable 5" (127mm) Square Canopy
SQ__JB	Aircraft Cable 5" (127mm) Square Canopy

Voltage

- Some CHUTE configurations will not accommodate all voltage options; consult with factory
- For EL1 driver, must specify 120v or 277v

U	Universal <i>(remote)</i>
1	120 volt
2	277 volt
3	347 volt <i>(remote)</i>

Driver

- Driver Lifetime: 50,000 hours at 25°C ambient operating conditions
- For more driver options, see Pinnacle Resource Guide
- Some CHUTE configurations will not accommodate all driver options; consult with factory
- EL1 driver is integral to the fixture housing. Remote box necessary for all drivers OTHER THAN the EL1

- Osram and Lutron Drivers have a remote distance limitation of 10'
- eldoLED Optotronic, eldoLED spec and Advance Drivers have an average remote distance limitation of 50'. Consult Factory for specific configurations
- REMOTE BOX(ES) CONFIGURATIONS DEPENDANT ON LUMEN PACKAGE AND FORM SIZE. Contact factory for more information.

Integral Driver

EL1 ERP Power 1%, 0-10v, requires 120 or 277

Remote Driver

0-10V Drivers

FSD	Factory Select Driver (1%, 0-10v)
PL2	Signify Advance Xitanium 1%, 0-10v
PL4	Advance Xitanium 347v 1%, 0-10v, requires 347v
OL2	eldoLED Optotronic, 1%, 0-10v
OL4	eldoLED Optotronic 347v, 1% 0-10v, requires 347v
EE1	eldoLED ECOdrive 1%, 0-10v Logarithmic
EE2	eldoLED ECOdrive 1%, 0-10v Linear
ES1	eldoLED SOLOdrive 0.1%, 0-10v, Logarithmic
ES2	eldoLED SOLOdrive 0.1%, 0-10v, Linear

DALI Drivers

Slim Remote Box

Standard Remote Box

How to specify Circuiting, Battery and Emergency

1

- Select fixture circuiting from options below
- Some CHUTE configurations will not accommodate all circuiting options, consult with factory
- Section wiring not available within an individual Form. Emergency circuit and Nightlight circuit options are for designation purposes only.

Circuiting

1	Single Circuit
E	Emergency Circuit only
N	Night Light Circuit only

2

+

3

- Battery and emergency options are available in addition to fixture circuit
- Select battery and emergency options below; factory shop drawing required
- Some CHUTE configurations will not accommodate all circuiting options, consult with factory

Battery and/or Emergency If Required

0	No battery or specific emergency section required
----------	---

Battery

- Battery is REMOTE.
- Battery operates between 1-4 fixture legs depending on fixture shape and size.
- For approx. battery lumen output, multiply battery wattage and fixture LPW shown on lumen table.
- Select battery section type if required, indicate total QTY. *Example 2PL*
- 90 minute battery runtime; test button is remote to fixture and requires an additional drop.
- For EL1 driver configurations with emergency battery option, driver and battery will be remote.
- For more battery options available, see [Pinnacle Resource Guide](#).

0	No Battery
_FSB	Factory Select Battery 10w <i>(remote in box)</i>
_FSBST	Factory Select Battery 10w, Self Testing <i>(remote in box)</i>
_IRC	Iota 10w Dual conduit flex <i>(remote with conduit)</i>
_PRD	Bodine 10w Dual conduit flex <i>(remote with conduit)</i>

For Approximate Battery Lumen Output

- Multiply battery wattage X fixture LPW shown on Lumen Table
- 120 (LPW) x 10 (watts) = 1200 battery lumen output

Emergency

- Emergency is REMOTE
- For EL1 driver configurations with emergency option, driver and emergency will be remote.
- Select emergency type if required, indicate total QTY. *Example 1E*
- Combine battery and emergency ordering codes if both options are selected.

_FSG	Factory Select ALCR, Emergency Control Device, UNV
_GI	Iota ETS-DR, Emergency Control Device, UNV

Battery OR Emergency Ordering Examples

- Single circuit, 10w Battery Ordering Code: 1-1PLL
- Emergency only, 10w Battery Ordering Code: E-1PLL

Finish

- Standard powder-coat textured white, metallic silver, textured black, graphite or bronze painted finish; consult factory for chip of standard paint finishes.
- Center hub will be painted to specified finish, inside and outside.
- Selecting a fixture finish other than white may impact lumen output; consult factory for more information.

W	White <i>(white cord/white canopy)</i>
S	Metallic Silver <i>(white cord/silver canopy)</i>
BL	Textured Black <i>(black cord/black canopy)</i>
BR	Bronze <i>(white cord/bronze canopy)</i>
GR	Graphite <i>(white cord/graphite canopy)</i>
CC	Custom Color <i>(white cord/color match canopy)</i>

Endcaps

- Endcap MUST be specified.

FE	Flat Endcap
IB	Inward Bevel Endcap
OB	Outward Bevel Endcap
AE	Arc 180° Endcap

Fixture Options

- Additional options to enhance the fixture and finish of the product.

DSP	Customer Supplied Battery/Driver/Sensor
CP	Chicago Plenum, applies to remote box

- Domestic content option - compliance is configuration dependent; consult factory for conformation

BA	Buy America(n) Act and/or Build America Buy America Compliant
-----------	---

Controls

- Pinnacle is able to accommodate different control solutions from different manufacturers. Consult Factory for more information.

Photometrics

Open

Test #	Scaled from ITL93-69
Catalog #	CD-N-835VHO-4
Lumens	3164 lm
Watts	25.8 W
Efficacy	122 LPW

For all available IES files, please visit our website at pinnacle-ltg.com. Photometry testing in accordance to IESNA-LM-79-08 at an NVLAP or IAS accredited testing laboratory. Testing conducted at 25°C ambient conditions
NOTE: For accurate light calculations of Chute Forms using lighting design software, Pinnacle recommends assembling an arrangement from individual 2-foot or 3-foot Leg Chute Form IES files.
Refer to the Chute Forms IES Instructions for more details.

Applications & Certificates

Construction: 6063-T6 Extruded aluminum housing with machined aluminum central hub. Highly reflective coextruded acrylic reflector with LED protection guard.

Mounting: Aircraft cable mounting. Aircraft Cable supplied with 5" (127mm) power and 2" (50.8mm) non-power canopies. Refer to installation instructions for appropriate ceiling detail.

LED: 25°C test environment. Lumen output/wattage has a margin of +/- 5%. Luminaire configurations tested in accordance with IES LM-79. Diodes tested in accordance with IES LM-80. Lifetime calculated using IES TM-21. Minimum lifetime greater than 60,000 hours. TM-21-21 Lifetime Rating L70 = >72,000 hours, L90 = 66,900 hours. MacAdam 3-Step Ellipses. For all available IES files, please visit our website at pinnacle-ltg.com.

CRI, CCT & Output: Not all lumen packages available. Four lumen packages available. Low (LO), Standard (blank), High (HO) and Very High (VHO). Custom outputs are available. Specify custom lumens or watts between standard offering listed on CRI, CCT & Output page. 80 CRI is available for 3000K, 3500K, and 4000K. 90 CRI is available for 2700K, 3000K, 3500K and 4000K. 90 CRI = R9≥50.

Voltage: Universal (U), 120 volt (1), 277 volt (2) and 347 volt (3) options available. Must specify PL4 or OL4 in Driver section when 347 volt (3) is selected. Some CHUTE configurations will not accommodate all voltage options; consult with factory.

Driver: Standard Driver Option is 0-10V, 1%. Electronic driver, Power factor is >0.9 with a THD <20%. Driver Lifetime: 50,000 hours at 25°C ambient operating conditions. Ambient operating range: -20°F/-30°C to 98°F/37°C. For more driver options, see Pinnacle Resource Guide. Some CHUTE configurations will not accommodate all driver options.

Remote Mounting Guide (Advance & eldoLED)

Distance limited by max input watts shown, Direct & Indirect should be calculated separately

Max Distance	50'	50'+
Y2/Y3/X2/X3	All configurations	Contact factory if more than 50' needed

Circuiting: Select from single circuit (1), dual circuit (2), Emergency circuit (E) or Night Light circuit (N). Some CHUTE configurations will not accommodate all circuiting options; consult with factory.

Battery & Emergency: Select battery or emergency options if required. If battery or emergency option is not required, enter 0. Battery duration is 90 minutes as standard. Test button is remote to fixture. For more Battery options, see Pinnacle Resource Guide.

Finish: Standard powder-coat textured white, metallic silver, textured black, graphite or bronze painted finish; consult factory for chip of standard paint finishes. Canopies painted to match fixture specified fixture finish. Contact factory for additional custom color and finish options.

Controls: Mod options available, consult with factory.

Buy America Act (BAA) and Build America, Buy America Act (BABA) Compliance: BAA and/or BABA compliance options are available to support federally funded projects requiring domestic content. Availability depends on configuration; Compliance is configuration-dependent; consult factory for confirmation.

Labels: UL and cUL 2108 or 1598 listed depending on product configuration. Approved for dry/damp location unless otherwise noted.

Sustainability: All models are Living Building Challenge (LBC) Declared with third-party verification. The Declare Label from ILFI provides transparent insights into materials, sourcing, and environmental impact, promoting informed, sustainable choices that benefit both people and the planet. View the label [here](#).

Fixture Weight: Maximum fixture weight is 6 lbs/ft.

Warranty: CHUTE LED offered with a 5-year limited warranty. Covers LED, driver and fixture.
